**SKU:** NFMCM204C

**Product Categories:** [Non-Folding Mail Carts](#)

**Product Page:** <https://professionalcarts.com/product/medium-wire-basket-cart/>

### Product Summary

Baskets are constructed of 43 solid steel rods, 1/8" thick reinforced with 3/16" frame wires all robotically welded and nickel chrome plated for the strongest baskets in the industry.

1" Front and back handles are punched for our bolt in 4" swivel ball bearing casters with special 7/8" post, casters stay tight eliminating caster fall out. Mail cart frame is 1" x 1 1/2" square steel tubing with welded 1/4" rods for rigidity. Each frame has 4 wrap around brackets for a tight fit and the best connection to the round tubular handles. Sturdy steel frames for lasting durability even when fully loaded over rough and uneven terrain.

Overall: 40"L x 18-1/2"W x 36-3/4"H

File Baskets: 31-1/4"L x 17-1/2"W x 10"H

Parcel Basket: 30-1/2"L x 16-1/2"W x 7"H
