## Product Description

Olympia Tools Pack-N-Roll® Folding Cart 85-506 - 48 Pockets, Blue  
Get organized and take your stuff with you when you use the Olympia Tools Pack-N-Roll 48-Pocket Foldable Cart. This heavy-duty canvas organizer with multiple storage pockets lets you organize papers and smaller items while providing a pocket for each to keep everything separated. The main zipper pouch provides ample room for notepads or books. You can load all your files, tools, accessories, school supplies and more into this pack and roll cart. You will also find pockets designed for items like pens and zippered touch fasteners pockets for protected storage. There are multiple side storage pockets as well. The removable rails turn the carrier into a foldable rolling cart that works much like a filing cabinet. Take everything on the go with you when you pull the organizer behind you with a convenient telescopic handle that operates by the simple push of a button. This pack and roll cart folds down to 3" for easy storage when not in use.
