Product Description

Ideal for controlled loading and unloading of large and/or long equipment. The

Salesmaker Easy Loader 289 is the smaller brother to the Heavy Duty 290, this cart has a 50" platform and a weight capacity of 300 lbs. The longer platform featured in Ferno's Salesmaker Easy Loader 289 Cart makes it possible to transport long or large equipment, or an array of components on one cart. Special independent leg releases work individually so that the operator does not have to support all the weight when loading and unloading. 11' Restraining Strap included.
