Capacity: 300 lbs.

Loading Height: 25"

Overall Length: 72"

Platform Height: 33"

Platform Length: 65"

Platform Width: 22"

Product Weight: 85 lbs.

Product Description

The Salesmaker Heavy Duty 290 features a 65" platform making this cart easy to transport extra-long equipment, and individual leg release locks take heavy loads off of the operator. The longer platform featured in Ferno's Salesmaker Easy Loader 289 Cart makes it possible to transport long or large equipment, or an array of components on one cart. Special independent leg releases work individually so that the operator does not have to support all the weight when loading and unloading. 11' Restraining Strap included.
