Product Description

Easy Single Person Operation. Handles up to 400 lbs. and features a 2-inch roll-off platform. The Salesmaker Low Profile 288 is perfect for transporting tall equipment

such as copiers with document feeders. The Ferno Salesmaker Low Profile 288 platform cart is designed specifically to allow one person to haul, load and unload tall equipment and other objects with the least amount of effort. The sturdy yet light-weight aluminum platform can remain with the equipment as it rolls off into your vehicle. The Salesmaker Low Profile 288 cart also features extra wide wheels for smooth rides over rough surfaces and the sliding platform has smaller wheels on the front to facilitate the easy transfer of your equipment from this amazing collapsible cart as it rolls gently onto the floor of your vehicle. 11' Restraining Strap included.
